

Internal Audit Policy — Risk-Based Branch Inspection Manual

1. Audit Frequency & Rating

Branches are audited under Risk-Based Internal Audit (RBIA) methodology every 12 to 18 months based on operational risk categorization (High, Medium, Low).

2. Key Checkpoints

Inspect cash vault double-custody records, loan file security documentation, dormant account reactivation approvals, and KYC compliance samples.

3. Compliance & Rectification

Branch managers must rectify high-risk audit observations within 30 days of report submission. Unresolved items are escalated to the Audit Committee of the Board (ACB).
