

Treasury Policy — Asset Liability Management & Liquidity Risk

1. Liquidity Coverage Ratio (LCR)

The Bank shall maintain a minimum Liquidity Coverage Ratio (LCR) of 100 percent on an ongoing basis, consisting of unencumbered High Quality Liquid Assets (HQLA).

2. Structural Liquidity Gaps

Cumulative negative mismatches in time buckets up to 14 days shall not exceed 10 percent of cumulative cash outflows in those buckets.

3. Interest Rate Risk in Banking Book (IRRBB)

Impact of a +/- 200 basis point parallel interest rate shock on Net Interest Income (NII) shall not exceed 10 percent of annual NII.
